### EDITORIALS

#### TRADITIONAL BRITAIN

THE present crisis in European affairs has restored Great Britain to a place of eminent respectability in the sight of all people who cherish freedom and honor.

During the crisis last September, for many months after, there was a feeling that the Empire hung in the balance; in fact there was an appalling sense almost that it was in the process of disintegration.

Even amongst ourselves, we were thrown into conflicts of opinion. There was often an eager but certainly not very substantial attempt at explaining our diplomacy. Of course the attitude taken by the government last September was dictated by necessity as a result of the noble but futile experiments of appeasement initiated by the Ramsay MacDonald Government at the time of the Manchukuo incident in 1931. Hundreds of thousands in the Orient and the succession of events in Europe left all decent humans echoing the words of the poet:

#### EARTH IS SICK

"And Heaven is weary of the hollow words which states and kingdoms utter when they talk of right and justice."

There seemed to be no obligation of conscience upon a state. It appeared that the freedom of small individual nations had forever succumbed to aggression, and the part that was the fact that Britain had apparently lost its traditional influence as an intercessor for the weaker units comprising the world.

But the firm stand taken on this occasion, suggested by preparations which have restored Great Britain to its place as a large and powerful nation has changed all this.

There is no egotistical marshalling of might in the old land, but there is pride in the knowledge that the Empire has once again attained the status of which Disraeli spoke when he said:

"I most highly value the consciousness that in the Eastern Nations there is a confidence in this country, and that while they know we can enforce our policy, at the same time they know that our Empire is an Empire of Liberty, of truth and of justice."

#### HUMANITY OR PROFIT

THE current World situation should give us pause to think of our position. Canada and the United States are in a unique position. For to a large extent, they control the world's supply of many war materials.

Canada, for example, has a virtual monopoly on nickel.

If we are to take our position as a nation of the world, we should be ready and willing to assume the obligations of nationalism.

We have condemned the policies of the dictator nations, particularly Japan. Yet Canada's exports of raw materials to Japan make it possible for Japan to carry on her campaign in China.

If we have the courage of our own convictions, we should be willing to clamp down on all exports to Japan.

A war can be won by trade just as easily as by guns. And in the long run, more economically. For some reason or other, it still does not appear to be realized that war is the most expensive means of settling a dispute ever devised by man.

WAR AND WEALTH

About the most effective method of raising wheat prices is to have a general European war. Such a war takes millions of men from the farms and places them in battling armies or in war industries.

These European farms are neglected, the soil is allowed to lie fallow, and the produce is sold at a low price.

It seems a cruel and senseless thing that war should be the only way to raise wheat prices. What is the main food of the world civilization, and somehow or other, peace time

international organization is so deficient that farmers who produce this food are heavily penalized in a price war when their produce rates more than the world immediately requires. But, when the Red God of War intrudes his presence upon earth governments hasten to induce farmers to produce more and more and always such as "Produce more—food will win the war" are circulated among the farmers.

It is only fair to say that the Western Canadian farmers do not want war to occur even though they know that such a catastrophe will "take" what a war will take when prices for at least a few years, the existence of history teacher that the subsequent slump would out all the temporary benefits of war time legislation. Then the prices of the things the farmers have to buy rises rapidly along with what so that they do not gain much benefit.

We read of European nations being on short rations, the bread provided for the populace being imported from abroad at comparatively high prices. The same nations will be compelling their subjects to live parsimoniously as far as food is concerned, are spending money with exorbitant lavishness in the purchase of munitions and arms. There may be rhyme and reason and purpose in this, but we fail to see it.

UNITY FOR RESULTS

OPINION—A true between Prime Minister King and Premier Hepburn whose quarrel has spiced old time parties for two years; seems to be one result of the present international crisis. The latter few here with Attorney-General Connors to discuss the protection of Ontario power plants with defense minister Mackenzie.

It will say nothing to embarrass Mr. King, promised Mr. Hepburn.

YOUTH MARCHES ON

TORONTO:—Col W. A. Bishop, V.C. in 1914, a Canadian, told Great War Veterans here that while "our hopes and prayers are for peace, happiness and prosperity," "you will respond with the same gallantry as did Canadian boys in 1914."

"Today the youth of Canada," he said, "are quite as brave, quite as gallant and quite as spirited as you were 25 years ago."

NO TAXES

Yellowknife.—More than half a mile of roadway, all of it, for automobile travel, has recently been completed within the Yellowknife peninsula, but no automobiles have arrived on it yet. While this northern mining center boasts two cars, they are intended for winter use on the ice and are now in storage.

BIG SALE

Purchase by the British Government of 5,000,000 bushels of Canadian wheat has been announced by trade and commerce minister Butler.

Being also chairman of the cabinet sub-committee of wheat, some of the purchases will be held in Canadian storage and in the new warehouse in part of it is understood.

ELEASANT SURPRISE

Regina.—Most resistant Thatcher here is receiving great praise from Saskatchewan farmers and grainmen. In the southwest, where it was said nothing would grow, wheat is reported an average of 25 to 30 bushels per acre. Higher yields and better grades are said to be due to the new variety.

#### WHAT THE LAST WAR COST

The Carnegie Endowment for International Peace estimated in 1919 that the real economic cost of the World War was \$124,000,000,000.

And the treasury department in Washington is authority for the statement that as far back as June 30, 1934, the monetary cost of the World War to the United States alone had already reached a considerable sum of \$41,765,000,000.

A statistician now furnishes a few more facts about the titanic struggle:

74,000,000 men mobilized.  
19,000,000 men killed.  
3,000,000 men maimed.  
19,000,000 men wounded.  
7,000,000 prisoners taken.  
9,000,000 children orphaned.  
5,000,000 widows widowed.

The picture is not a pretty one and no sane person wants to see it reproduced with even more staggering details.—Detroit Free Press.

#### HOSPITAL BOARD HOLDS REGULAR MEETING

The regular monthly meeting of the Hospital Board was held at seven o'clock in the evening, September 2, in the hospital. All members were present except Chairman Henry Foyell.

Accounts totaling thirty-four were passed for payment. The Superintendent reported that during the month of August 62 patients had received treatment; there were 35 surgical operations. Four deaths occurred during the month and there were six births, four boys and two girls.

The report of the secretary showed that the amount for the month of August amounted to \$1,939.92 and that collections from patients had improved during the month. The payment of requisitions by the contributing areas was being made very satisfactorily this year.

The next regular meeting of the Board will be held on Saturday, October 7th.

#### The SNAPSHOT GUILD

##### SNAPSHOT PARTIES

Humorous pictures—such as a series of a man eating a juicy grapefruit—provide fun at a snapshot party. Arrange such a party for your fellow camera fans.

WHENEVER photographers get together, the season is ripe then for a snapshot party. Such a party is a splendid entertainment idea—whether its intention is serious picture-taking or just plain snapshot fun.

The party can take two forms. Guests can be sent out on a "picture hunt"—each one assigned to bring back a snapshot of a certain type. Or a room can be fitted up with a few photo lights at the host's home, and each guest given a picture idea to illustrate.

Guests should be told to bring their cameras, loaded with suitable film. Since most parties will be held at night, the preferred film is one of the new high speed "super" type. The host should also obtain a few simple exposure guides, to assist guests who have not had much experience in taking night pictures.

For a picture hunt, one guest can be assigned to picture street scenes; another can picture shop windows; and another can take snaps of electric signs. Brightly-lighted subjects without movement should be chosen.

Mr. A. S. Currie returned the first of the week from a short holiday in Calgary.

Mr. and Mrs. T. R. Board and daughter of Arrowwood were Sunday visitors at the home of Mr. and Mrs. J. Cary. They were accompanied by Mrs. J. Kilborn, who will reside here for a short while.

Mr. and Mrs. W. J. Redmond and sons motored to Calgary on Saturday morning to spend the weekend stalling there.

Mr. and Mrs. M. S. Hutchison left last week-end for Viking, where they will spend a few days visiting with the latter's parents.

#### ALL EARS ON RADIO

Citizens of Bassano are showing a keen sense of loyalty to the Empire during these depressing days, and all are constant listeners to news broadcasts, carrying information on life in Europe.

To date several persons in the town and district have journeyed to Calgary and volunteered their services for the Dominion. Further information will be published next week.

(Continued from Page One)

#### Dormitories

Reports on good authority show that six pupils are coming from Bow Slope, as well as one from Tilley. There is a possibility some more may enroll from the Gem and Rosemary districts.

Thus students begin another year in an attempt to seek knowledge from each other. While war clouds hang gloomily over a sorry student, may pupils of Bassano High School gain that education that will aid in his or her life work.

And these Canadian Fish Pies  
are new, unusual and  
delicious

Here are pies to stick to the ribs,  
to appeal to men, and to make children  
sit up and eat their dinner. They  
were developed by Helen Campbell  
well known food authority, and are  
most original and delicious. Take  
for instance the Shellfish and Kidney  
Pie, an adaptation of a hearty standby

**CHECK YOUR DRIVING****AGAINST THIS CODE**

In connection with its current safety  
campaign, a new "safety-driving  
code" of 10 points has been worked  
out by the Alberta Safety League. Motor-  
ists would do well to study this  
code which has been prepared by  
motoring experts in the form of ques-  
tions, as follows:

1. Do you keep your mind on your driving, watch the movements of the other cars, and try to anticipate what they will do?
2. Do you keep in the line of traffic especially when nearing the top of a hill or a sharp turn?
3. Do you comply with traffic regulations, signals and signs, and slow down at crossings and dangerous intersections.
4. Do you know the feeling of always having your car under control, by having it, brakes, especially, inspected regularly?
5. Do you watch for pedestrians, particularly children?
6. Do you signal to the car behind you when you intend to change your course?
7. Do you maintain a speed satisfactory to motorists both ahead and behind you.

**FELLOWSHIP**

By Carleton Everett Knox  
If I can help my fellow man  
By thought or word or deed,  
I'll feel my life has been well spent,  
I'll worry not of creed  
If I can bring a smile of joy  
To eyes bedimmed with tears,  
I'll worry not of sects or isms,  
I'll free my thoughts from fears.  
If I can lend a helping hand  
To one less strong than I,  
Or heaven I'll reap here on this  
earth,  
Not in some distant sky.

**GOING DOWN**

Edmonton: Last week's report of  
Alberta unemployment service showed  
a total of 5,435 unemployed regis-  
tered in five largest Alberta cities.  
This figure is 324 less than the week  
previous, 529 less than a month  
ago, and 1,473 less than a year ago.

centuries old, but quite new in this  
combination. Good for cold days,  
a one dish meal that simplifies prepa-  
ration, easy for family dinner,  
something to talk about when you  
have friendly company.

**Halibut and Kidney Pie**

- 1 lb. Canadian Halibut or
- 1 lb. Chicken Laddie.
- Salt and Pepper.
- 2 tablespoons butter.
- 2 tablespoons flour.
- 1 cupful water.
- 1 small onion chopped.
- 1 beef kidney.

Baking powder blanchet dough.  
Place the halibut on a rack, sprinkle  
with salt and pepper and cook  
over boiling water until tender, 6  
to 10 minutes, depending on the  
thickness. Separate into flakes.  
Wash and split the kidney, remove the  
cord and membrane and cut into  
sections. Cover with cold salted  
water and let stand for half an hour.  
Drain and cook in the butter for  
two or three minutes. Add the flour  
and cook from 2 to 3 minutes longer,  
stirring frequently until nicely  
brown. Add the water, chopped  
onion and seasonings, cover, and  
simmer for 15 minutes. Add the  
flaked halibut and turn the mixture  
into a deep baking dish. Roll bak-  
ing powder blanchet dough to one-  
third inch thickness, cut with a  
medium cutter and place biscuits on  
top of the mixture in the baking dish.  
Bake in a hot oven (450 degrees F.)  
until the biscuits are risen and nicely  
brown. Four to five servings.  
Smoked haddock may be used in  
place of halibut.

8. Do you give other motorists the  
right of way when there is any ques-  
tion about it?
9. Do you dip or dim your lights  
when meeting other cars at night?
10. Do you show the same courtesy  
that you would like to have shown  
you?

**NATION BUILDING**

JUST nineteen years after Selkirk and his  
Red River settlers built Ft. Douglas, this Bank  
first opened its doors. For over a century,  
it has served Canada in providing the  
"sinews of peace" that has helped make it  
possible for this new country to develop into  
one of the foremost nations of the world.

Today, this century-old Bank is ready to  
co-operate with forward-looking business  
men and welcomes their inquiries.

**UNITY OF CANADA**

**MANITOBA Gateway EAST AND WEST**

Winnipeg lies in the middle of the North  
American Continent; midway between the Arctic  
and the Gulf of Mexico, and the Atlantic and  
Pacific Oceans. Four great railways converge upon her,  
as did the historic roads leading to Rome. Her immense  
cattle yards cover miles of tracks and sheds.  
Manitoba has been always before the eyes of the  
world—as a resource, a frontier, then, as the  
possessor of fabulous wealth, then as the home of an  
industrious population that wrested from the soil, the lakes, the forests, and the mines, an  
immense natural income. In 1936 she produced \$254,000,000 in her varied activities:  
agriculture, mining, forestry, trapping; fisheries (don't forget her Lake Winnipeg trout  
measures 4,500 square miles) exporting a million and a half tons of these various  
commodities, which include pulpwood, dressed beef, and newspapers, to home and  
foreign markets. An amazing record! She has 80,000 registrations for  
motor vehicles and machines of all kinds, and 35,000 miles of highways and  
roads, of which she is surfacing additional miles every year. Tourists in  
motor cars and by train are coming in increasing numbers to see for  
themselves this great country. Visit her, says. See wheat, all other grains,  
cattle (alive and as dressed beef), pulpwood, newspapers—many other  
products for which hungry mouths of men and machinery wait in the  
industrialized East. See the sons of British Columbia trout and  
salmon being unloaded for Manitoba's own consumption. Thus, the  
sale of Manitoba's products allows her to purchase  
those of sister provinces. Ask for Facts and Figures  
concerning the Automotive Industries and the work  
they are doing in Canada, and we will send them.

**BUILDING CANADIAN MOTOR CARS is a National Enterprise**

Today there are approximately 1,500,000 cars  
in the United States. Beyond that number  
the streets of Manhattan, Chicago,  
Cape Town and Singapore and other  
Empire cities. While these vast fleets of wheels  
have been built from Windsor and Valparaiso  
Ontario and Tientsin, the great work of building  
them has been largely Canadian and it is  
people in every Province. It has stimulated  
the production of raw materials throughout  
the Dominion and created a stable source of income  
for the farmer and the laborer. Our Auto-  
mobile Industry is a source of export and  
employment and it is a source of pride.

**1006 LUMSDEN BUILDING - TORONTO, ONTARIO.**

## Miss Thompson

L.R.A.M., M.R.S.T.

will start a Piano Class in BASSANO, TUESDAY, SEPT. 19th

For further information communicate with Mrs. W. J. Redmond, Bessano.

## Testimonial

Friends School,

Lisburn, Ireland.

As a teacher of Music, Miss Thompson, L.R.A.M., has fully maintained the reputation she already had in other schools. Her work is thoroughly conscientious and painstaking. This is the opinion of His Majesty's Inspector expressed to us—has been confirmed by the success of her pupils (boys as well as girls). There have been no failures and marks in all cases were good. In the difficult work of starting very young children, Miss Thompson is unusually successful, and her classes in Eurythmics have been a delight to all.

G. P. Spencer Smith, Headmaster.
